## Web/Graphics Designer

### Description

We are looking for a well-rounded web designer who can help us continuously improve our customers' experience while interacting with our business online.

As our **Web Designer**, you're involved interacting with our marketing team and developer in the creation/maintenance of web pages, email marketing templates, and other graphic design tasks.

You'd be a perfect fit for the role if you are creative, proactive, and a strategic thinker; with a willingness to learn and grow with our business.

### Qualifications

#### What you'll bring in:

- A bachelor's degree in Art, Computer Science, Design, Information Technology, Multimedia Arts or the like
- At least 1 years' experience in web design or a similar field
- Knowledgeable in UI and UX best practices
- Familiarity with HTML, CSS and other technologies involved with website creation
- Advanced knowledge in the Adobe Creative Cloud design tools
- Advanced knowledge web design tools such as Adobe XD and/or Figma
- Up-to-date knowledge of design trends and best practices
- Requirement: Portfolio link of design works

### Job Benefits

#### What We Offer

- A full-time, dayshift, hybrid work
- Competitive salary package
- Maintain your work-life balance with a day shift position and a manageable workload
- Work closely and efficiently with our in-house web developer and marketing team

#### This is where you'll shine:

- Conceptualize and create intuitive, engaging, and brand-consistent web experiences

### Hiring organization

Endsofttech Web Solutions

### Employment Type

Full-time, Temporary

- Continuously improve and optimize user experience for sites
- Assist in creating business graphic design needs
- Collaborate in concept development and design ideation cross-functionally to help define a creative strategy
